

Hyundai Extends Two-Stroke Licence with MAN Diesel & Turbo

Copenhagen,
03/04/2017

At a recent ceremony in Copenhagen, the Engine & Machinery Division of Hyundai Heavy Industries (HHI-EMD) signed a contract extending its two-stroke licence agreement with MAN Diesel & Turbo. This latest extension continues a low-speed collaboration that first began in 1976.

MAN Diesel & Turbo was represented at the signing ceremony by Klaus Engberg (Senior Vice President and Head of Two-Stroke Licensing), Thomas Knudsen (Senior Vice President, Head of Low-Speed), Bjarne Foldager (Vice President, Promotion & Sales, Two-Stroke Business) and Søren H. Jensen (Vice President, R&D).

Knudsen said: "MAN Diesel & Turbo has enjoyed a long working relationship with Hyundai, one that we are delighted to extend. Hyundai has always played a significant role in the development of two-stroke innovation and, indeed, produces the full range of our low-speed portfolio. We look forward to inspiring each other for many years to come."

About MAN Diesel & Turbo

MAN Diesel & Turbo SE, based in Augsburg, Germany, is the world's leading provider of large-bore diesel and gas engines and turbomachinery. The company employs around 15,000 staff at more than 100 international sites, primarily in Germany, Denmark, France, Switzerland, the Czech Republic, India and China. The company's product portfolio includes two-stroke and four-stroke engines for marine and stationary applications, turbochargers and propellers as well as gas and steam turbines, compressors and chemical reactors. The range of services and supplies is rounded off by complete solutions like ship propulsion systems, engine-based power plants and turbomachinery trains for the oil & gas as well as the process industries. Customers receive worldwide after-sales services marketed under the MAN PrimeServ brand.
